

Providing Behavioral Healthcare for Greater Well-Being

Treatment In Place[®] Ohio at Bethesda Care Center

Bethesda Care Center is building on our reputation for quality care by providing a service that brings the newest and best practices in behavioral health to you and your loved ones. Treatment in Place[®] Ohio is a behavioral health service that is backed by nearly 60 years of experience specifically for the well-being of residents in senior living communities.

What Is Treatment In Place[®]

A program that incorporates the treatment of behavioral health challenges into the residents daily care routine by:

- Providing access to a specialty psychiatric nurse practitioner
- Ensuring staff are trained and educated in the most current and effective treatment and deescalation practices for residents with behavioral health needs
- Coordinating with your primary care provider
- Working towards a gradual dose reduction of anti-psychotic medications when possible
- Reducing emergency room visits and psychiatric hospitalizations

Benefits to our Residents

- Resident-centered care designed to address each individual's needs
- Ensures the lowest medication doses possible for increased awareness and enjoyment of life
- Treats the resident's behavioral health challenges in a familiar environment
- Reduces the stress and fear associated with hospital transfers
- Provides a seamless care continuity for the best possible outcome
- Provides a higher quality of life
