## SHORT-TERM REHABILITATION

### State-of-the-art Therapy Clinic

- Biodex technology screens for likelihood of falls and provide balance conditioning.
- Ceiling harness system offers superior weighting and body support to enhance recovery.
- Kitchenette includes stove, microwave, sink, appliances and other items to simulate everyday living.
- Full bath setting includes tub/shower, accessible sink and toilet.

After a hospitalization, injury or illness, a short-term stay in our top-ranked rehab center brings you back to a level of care where you can return home. Our skilled therapists work with you individually to achieve your set goals.

**Physical Therapy** Regain lost physical ability and improve mobility through training in balance and walking, and exercises focused on strength and endurance.

**Occupational Therapy** Learn to perform household tasks and to work using lifestyle adaptations. Your therapist will recommend safe, effective ways to perform daily activities such as dressing, bathing and cooking.

**Speech Therapy** Our therapists are specially trained in the treatment of individuals with communication and swallowing difficulty. Regain and improve your communication skills and ability to safely eat and drink through exercise, techniques and possible use of assistive devices.

## RESPIRE CARE

For caregivers who need a little time away, brief, nurturing respite stays in our communities are ideal care options for their loved ones. Our respite guests enjoy the same short-term rehab, long-term care and services our residents receive, including individualized plans of care, activities, conveniences and amenities. Respite stays also are perfect for anyone recovering from illness or hospitalization and are meant for a short stay.

## HOSPICE CARE

Hospice care is a type of health care that focuses on the palliation of a terminally ill patient's pain and symptoms and attending to their emotional and spiritual needs at the end of life. Our hospice care services prioritize comfort and quality of life by reducing pain and suffering for the patient. Care is tailored to your needs and wishes with support emotionally, physically and spiritually.
