GATHERING  
ROOM

The community, residents and family are invited to attend this event.

- Free event
- Open to the public
- Learn brain and brain injury facts
- Interpret brain injury resources
- Gain understanding of brain injury prevalence

## Speaker: Alec Wendelboe

Alec is a Minnesota native, who received his degree in Neuroscience from Hamline University. Alec spent much of his undergraduate degree conducting research through the Wesley and Lorene Artz Cognitive Neuroscience Center, with much of his work focused on the effects of sleep deprivation and cognitive reflection. After graduation, Alec began providing Case Management services through the MN Brain Injury Alliance. Alec now oversees the Education and Outreach department for the alliance, and provides the Brain Injury Basics education series across the state.
